

## GP45H4-GWXF004

This series of products used in a closed loop electro-hydraulic proportional control system with electro-hydraulic proportional control amplifier supporting the use, LVDT linear position sensors measuring head and the rigid connection on solenoid armature, enabling direct detection of the position of the spool, so as to achieve accurate the purpose of the control spool displacement.

#### ✦ Description

##### Uses:

This series of products used in a closed loop electro-hydraulic proportional control system with electro-hydraulic proportional control amplifier supporting the use, LVDT linear position sensors measuring head and the rigid connection on solenoid armature, enabling direct detection of the position of the spool, so as to achieve accurate the purpose of the control spool displacement.

##### The main technical parameters:

Type	GP45H4-GWXF004
Specification	Φ46mm
Itinerary	3+3mm
Rated Force	110N
Coil	R3.2Ω IN2.6A
Protection provided by enclosures	IP67
